

**Portable high resolution ultra compact PVR system-** the ultimate portable recorder, records in high resolution (user select up to 720p) at full fluid motion 30fps, records to standard mini SD cards, records on motion detection, or 1 button record powered by rechargeable mobile phone battery, very simple to use, silent, recording both audio and video. The result can then be played back on the 2" LCD TFT screen or transfer to computer or straight onto your TV. The kit includes a multitude of options for hiding the camera lens, pinhole, Philips head screw and button lens covers. Interchangeable mobile phone batteries allow for prolonged use while out and about. Charge the Angel Eye by connecting to the USB of your computer or with the battery cradle. Everything you need for undercover recording is truly delivered in this kit straight out of the box.
