

## DV003

### Interview or Spy Recorder

It doesn't get any  
Smaller than this!

The Mega Mini Spy Camera Stick is the **smallest high resolution video and audio recorder ever made!** It's so small; it can fit inside a pack of gum! Ideal for the most discrete applications, this easy to use spy camera lets you record any video or audio with a push of a button. The Mega Mini Spy Camera Stick records Hi-Resolution (3gp) real time (15fps) video via its internal pinhole camera at the touch of a button.

## Easy 3 Step Use:

**1**  
Press Button To Start  
or Stop Recording  
Audio and Video.

**2**  
Plug included USB  
cable into any  
computer.

**3**  
Store up to 33 hours  
of recorded video and  
audio to watch, save,  
or email!

Despite its size, this video and [audio recorder](#) is packed with high quality features:

- Easy One Touch Record
- Ultra Covert
- Incredible 33 hours of video and audio storage on a 1 Gig card
- Record up to 2 hours on a single charge with internal rechargeable battery
- 3GP (177 x 144) Resolution
- Can be used as a USB Storage Device
- View your Videos instantly by connecting the Mini Spy Camera to your PC via USB
- Wide Angle 3.6mm lens
